Index to ASME Transactions

Volume 71, 1949

The ASME Transactions for 1949 was issued in January, February, April, May, July, August, October, and November, 1949. The Society Records for the year 1948 appeared as supplements, one in February, 1949, and the index section in January, 1950. The page numbers for these supplements are designated by the symbol SR, and the February supplement contains its own index. (AC) denotes author's closure; (BR) book review; (D) discussion of a paper.
